**Vol. 173 Nos. 1,2** **MAY 23rd, 1994**

## CONTENTS

*(Cited in Biological Abstracts (BIOSIS), Chemical Abstracts, Current Contents/Life Sciences, Excerpta Medica (EMBASE), Index Medicus, PASCAL M and Science Citation Index)*

*Guidelines for the Submission of Manuscripts* v

Short-term treatments with haloperidol or bromocriptine do not alter the density of the monoamine vesicular transporter in the substantia nigra
L. Naudon, I. Leroux-Nicollet and J. Costentin (France) 1

Effects of sympathectomy on the cutaneous temperature abnormalities in rats with chronic constriction injury of the sciatic nerve
S. Wakisaka, M. Shibata, S. Takikita, I. Yoshiya and K. Kurisu (Japan) 5

Expression of $GABA_A$ receptor $\alpha_2$ sub-unit mRNA by periventricular somatostatin neurones in the rat hypothalamus
A.E. Herbison and S.J. Augood (UK) 9

Relationship between calcium permeability and rectification properties of AMPA receptors in cultured rat hippocampal neurons
M. Iino, S. Mochizuki and S. Ozawa (Japan) 14

Nitric oxide regulates spike frequency accommodation in nodose neurons of the rabbit
A.S. Cohen, D. Weinreich and J.P.Y. Kao (USA) 17

Study on the induction of spontaneous transmitter release at early nerve–muscle contacts in *Xenopus* cultures
N. Tabti and M.-M. Poo (USA, France) 21

Attenuation by chlormethiazole of oedema following focal ischaemia in the cerebral cortex of the rat
A.R. Green and A.J. Cross (UK) 27

Serotonin and NADPH-diaphorase in the dorsal raphe nucleus of the adult rat
G. Wotherspoon, M. Albert, M. Rattray and J.V. Priestley (UK) 31

Receptor-mediated activation of G proteins is reduced in postmortem brains from Alzheimer's disease patients
H.-Y. Wang and E. Friedman (USA) 37

Impairment of feedforward inhibition in CA1 region of hippocampus after chronic benzodiazepine treatment
X. Zeng, X.-H. Xie and E.I. Tietz (USA) 40

Lack of effect of 4-aminopyridine on acute resetting of the type I carotid baroreceptor
H.A. Drummond and J.L. Seagard (USA) 45

Brainstem neurons with projecting axons to both phrenic and abdominal motor nuclei: a double fluorescent labeling study in the cat
F. Portillo, L. Grélot, S. Milano and A.L. Bianchi (France, Spain) 50

Coexistence of galanin and substance P in the mouse nasal mucosa, including the vomeronasal organ
H. Matsuda, M. Tsukuda, T. Kadota, T. Kusunoki and R. Kishida (Japan) 55

Supersensitization of intrastriatal dopamine receptors involved in opposite regulation of acetylcholine release in Parkinson's model rats
K. Sato, H. Ueda, F. Okumura and Y. Misu (Japan) 59

A GABAergic mechanism in the medial septum influences cortical arousal and locomotor activity but not a previously learned spatial discrimination task
P.G. Osborne (Australia) 63

Choline acetyltransferase and NADPH-diaphorase localization in the goldfish habenulo-interpeduncular system
L. Villani, T. Guarnieri and I. Zironi (Italy) 67

Colocalization of binding sites for somatostatin, muscarine and nicotine on cultured neurones of rat neocortex, cerebellum, brain stem and spinal cord: combined autoradiographic and immunohistochemical studies
E. Hösli and L. Hösli (Switzerland) 71

Transient ischemia causes a reduction of $Mg^{2+}$ blockade of NMDA receptors
N. Hori and D.O. Carpenter (USA) 75

The coexistence of embryonic and adult acetylcholine receptors in sarcolemma of mdx dystrophic mouse muscle: an effect of regeneration or muscular dystrophy?
D. Költgen and C. Franke (FRG) 79

Increases of excitatory receptive fields of retinal ganglion cells in common toads under apomorphine are not associated with size preference in prey-snapping
M. Glagow and J.-P. Ewert (Germany) 83

Immunocytochemical co-localization of substance P and calcitonin gene-related peptide in afferent renal nerve soma of the rat
M. Burg, D.S. Zahm and M.M. Knuepfer (USA) 87

NGF, bFGF AND CNTF increase survival of major pelvic ganglion neurons cultured from the adult rat
J.B. Tuttle, T. Mackey and W.D. Steers (USA) 94

Carba prostacyclin enhances the capsaicin-induced cobalt-loading of rat sensory neurons grown in culture
C.M. Hingtgen and G.D. Nicol (USA) 99
An immunohistochemical observation of manganese superoxide dismutase in rat substantia nigra after occlusion of middle cerebral artery
X.-H. Liu, H. Kato, T. Araki, Y. Itoyama, K. Kato and K. Kogure (Japan) 103
Effects of neopterin on ischemic neuronal damage in gerbils
T. Arai, K. Watanabe, S.-i. Nakao, H. Mori, M. Murakawa, K. Mori, I. Tooyama, H. Kimura and S. Kojima (Japan) 107
The density of melatonin receptors is dependent upon the prevailing photoperiod in the Japanese quail (*Coturnix japonica*)
G.C. Panzica, F. Fraschini, N. Aste, V. Lucini, C. Viglietti-Panzica, B. Cozzi and B. Stankov (Italy) 111
Central inhibition of nitric oxide synthase attenuates water intake but does not alter enhanced glucose utilization in the hypothalamo-neurohypophysial system of dehydrated rats
M. Kadekaro, M.L. Terrell, P. Harmann and J.Y. Summy-Long (USA) 115
Changes in tyrosine hydroxylase activity and melatonin synthesis in rat pineal glands throughout 72 hours of incubation
C. Santana, F. Moujir, N. Fajardo, A. Castañeira, F.J. Hernández and P. Abreu (Spain) 119
Immunoglobulin-G isotype changes in human sporadic amyotrophic lateral sclerosis (ALS)
M.E. Westarp, P. Bartmann and H.-H. Kornhuber (FRG) 124
Enhancement by serotonin of GABA-mediated inhibitory synaptic currents in rat cerebellar Purkinje cells
H. Mitoma, T. Kobayashi, S.-Y. Song and S. Konishi (Japan) 127
Calcium accumulation by dendritic mitochondria declines along the apical dendrites of pyramidal neurons in area CA1 of guinea pig hippocampal slices
L. Siklós and U. Kuhnt (Hungary, FRG) 131
Interaction of histogranin and related peptides with [$^3$H]dextromethorphan binding sites in rat brain
M. Dumont, J. Prasad and S. Lemaire (Canada) 135
Expression of functional metabotropic and ionotropic glutamate receptors in baculovirus-infected insect cells
S.M. Ross, F.A. Taverna, D.S. Pickering, L.-Y. Wang, J.F. MacDonald, P.S. Pennefather and D.R. Hampson (Canada) 139
Dopamine and $\gamma$-aminobutyric acid transporters: differential regulation by agents that promote phosphorylation
Y. Tian, G. Kapatos, J.G. Granneman and M.J. Bannon (USA) 143
Inhibitory effects of $\beta$-amyloid peptides on nicotine-induced $Ca^{2+}$ influx in PC12h cells in culture
T. Takenouchi and E. Munekata (Japan) 147
Human core temperature minimum can be modified by ambient thermal transients
G. Dewasmes, A. Nicolas, D. Rodriguez, P. Salame, R. Eschenlauer, D. Joly and A. Muzet (France) 151
Monomeric amphiphilic forms of acetylcholinesterase appear early during brain development and may correspond to biosynthetic precursors of the amphiphilic $G_4$ forms
N.C. Inestrosa, R.D. Moreno and M.-E. Fuentes (Chile) 155
Effects of $CO_2$, acetate and lowering extracellular pH on cytosolic $Ca^{2+}$ and pH in cultured glomus cells of the newborn rabbit carotid body
M. Sato (Japan) 159
Human brain potential signs of selection by location and frequency in an auditory transient attention situation
E. Schröger (FRG) 163
Differential effects of guanosine 5′-*O*-(3-thiotriphosphate) (GTP$\gamma$S) on the 2-[$^{125}$I]iodomelatonin binding sites in the chicken bursa of Fabricius and spleen
A.M.S. Poon and S.F. Pang (Canada) 167
Fetal mesencephalic grafts influence the dopamine release in the non-lesioned striatum of 6-OHDA-lesioned rats: a behavioral and in vivo voltammetric study
T. Reum and R. Morgenstern (FRG) 172
Neostriatal mosaic and type II $Ca^{2+}$/calmodulin-dependent protein kinase: an immunohistochemical study on the adult rat striatum
S. Goto, K. Yamada, Y. Ushio, K. Fukunaga and E. Miyamoto (Japan) 177
Origins of sympathetic innervation to the mesenteric vein vessel in cats
H.I. Chen, B.H. Kang, J.-Y. Wang and Y.L. Tseng (ROC) 181
Circadian rhythms of norepinephrine in the rat suprachiasmatic nucleus
F.R.A. Cagampang, H. Okamura and S.-I.T. Inouye (Japan) 185
Stable transfection of the NR1 subunit in Chinese hamster ovary cells fails to produce a functional *N*-methyl-D-aspartate receptor
F.A. Boeckman and E. Aizenman (USA) 189
Antinociceptive effect of spinally delivered prostaglandin E receptor antagonists in the formalin test on the rat
A.B. Malmberg, M.F. Rafferty and T.L. Yaksh (USA, Sweden) 193
Increases in the power spectral slope of background electroencephalogram just prior to asymmetric spike and wave complexes in epileptic patients
T. Inouye, Y. Matsumoto, K. Shinosaki, A. Iyama and S. Toi (Japan) 197
Dental noxious input reaches the subnucleus caudalis of the trigeminal complex in the rat, as shown by c-*fos* expression upon thermal or mechanical stimulation
F. Coimbra and A. Coimbra (Portugal) 201
A behaviorally active dose of lipopolysaccharide increases sensory neuropeptides levels in mouse spinal cord
J.-L. Bret-Dibat, S. Kent, J.-Y. Couraud, C. Creminon and R. Dantzer (France) 205

Inhibition of a 5-$HT_3$ receptor-mediated current by the selective serotonin uptake inhibitor, fluoxetine
P. Fan (USA) 210

Is there a long-lasting effect of a short-term nerve growth factor application on axotomized rat septohippocampal neurons?
T. Naumann, P. Kermer, V. Seydewitz, R. Ortmann, F. D'Amato and M. Frotscher (FRG, Switzerland) 213
